Subject Index to Volume 8 (1977)

Blood groups and biochemical polymorphism in cattle

Polymorphic variation in the amount of sialic acid attached to bovine transferrin: R. L. Spooner, R. A. Oliver and G. Williams 21

Ox erythrocyte agglutinability. 4. The effect of neuraminidase treatment on the agglutinability of cells and ghosts: J. R. Green and R. L. Spooner 25

Hemoglobin polymorphism in Italian water buffalo (*Bubalus bubalus*) (*Arnee*)): Piero Masina, Domenico Iannelli, Mario Iorio and Luigi Ramunno. 65

On linkage relations of ceruloplasmin polymorphism (Cp) in cattle: Bent Larsen 111

Horizontal polyacrylamide gradient gel electrophoresis for the simultaneous phenotyping of transferrin, post-transferrin, albumin and post-albumin in the blood plasma of cattle: Bo Gahne, R. Kumar Juneja and Ján Grolmus 127

Polymorphism of 6-phosphogluconate dehydrogenase in the leucocytes of cattle: H.-D. Probeck and H. Geldermann 157

Difference between the Hb C variants in Brahman and in indigenous Southern African cattle breeds: Marie Schwellnus and G. Guérin 161

Serologically detected lymphocyte antigens in Holstein cattle: J. Caldwell, C. F. Bryan, P. A. Cumberland and D. F. Weseli 197

Serum antigens of cattle. VI. Isolation and properties of an intracellular antigen (Ecl) from cattle erythrocytes: G. Bhargava and W. H. Stone 209

Gene clusters in the blood group system B of cattle: W. A. Ruiterkamp, C. M. Spek and J. Bouw 231

Blood groups and biochemical polymorphism in horse

A new factor (Dg) of the D blood group system of the horse: Luba Podliachouk and J.-C. Meriaux 179

Blood groups and biochemical polymorphism in pig

Gene frequencies of blood groups in Dutch swine breeds: P. H. F. M. van Asten and R. C. Buis 39

Serological defined specificities of the pig main histocompatibility complex (SL-A): V. Hruban, M. Simon, J. Hradecký and J. Pazdera 85

Presence of soluble SLA histocompatibility antigen in pig plasma: P. Chardon, M. Vaiman, Ch. Renard and B. Arnoux 139

Serum amylase 2 polymorphism in pigs: V. A. Jumkov and L. I. Nikonchik 247

Blood groups and biochemical polymorphism in sheep

Genetic markers in Herdwick sheep: no correlation with susceptibility or resistance to experimental scrapie: Susan C. Collis, G. C. Millson and R. H. Kimberlin 79

A new hemoglobin β chain variant in sheep: M. E. John and (Mrs) Manorama John 183

Blood groups and biochemical polymorphism in birds

Genetic control of alkaline phosphatase isozymes in chicken duodenum: Yoshinori Tamaki, Shozo Watanabe and Sachiko Moriuchi 33

Genetic control of the immune response in lines of chickens selected for graft-versus-host competences: Hisato Okabayashi and Ikuo Okada 55

Allelism of genes controlling K1 and K3 antigens in chickens: Wieslawa Janicka-Mazur and Jan Wegrzyn 171

Chicken plasma alkaline phosphate isozyme types and egg production: Yoshinori Tamaki and Shozo Watanabe 251

INDEXES

Blood groups and biochemical polymorphism in fish

A survey of biochemical variants found in groundfish stocks from the North Pacific and Bering Sea: Allyn G. Johnson 13

Polymorphism and heterogeneity of transferrins in some species of the fish family Cyprinidae: M. Valenta, A. Stratil and L. Kálal 93

Electrophoretic patterns of aspartate aminotransferase in the loach *Misgurnus anguillicaudatus:* Masao Kimura 115

Genetic polymorphism and isoenzyme patterns of lactate dehydrogenase in tench *(Tinca tinca)*, crucian carp (*Carassius carassius*) and carp (*Cyprinus carpio*): M. Valenta, V. Slechta, V. Slechtová and L. Kálal 217

Blood groups and biochemical polymorphism in other animals

Inheritance studies of glucose phosphate isomerase, transferrin and esterases in the Australian hopping mice *Notomys alexis, N. cervinus, N. mitchellii* and *N. fuscus* (Rodentia: Muridae): P. R. Baverstock, C. H. S. Watts and S. R. Cole 3

Immunogenetic studies of rhesus monkeys. 8. A new reagent of the G blood group system and an example of the founder principle: P. T. Sullivan, C. Blystad and W. H. Stone 49

Bryan, C. F., see Caldwell, J. 197

Mitochondrial iso-citrate dehydrogenase variation in the Australian bush-rat, *Rattus fuscipes greyii:* Lincoln H. Schmitt 73

Genetic polymorphism of eserine resistant esterases in canine plasma: Shuji Sigiura, Yuichi Tanabe and Katuaki Ôta 121

Haemolytic anaemia in Basenji dogs. 2. Partial deficiency of erythrocyte pyruvate kinase (PK; EC 2.7.1.40) in heterozygous carriers: E. Andresen 149

Genetic differences in milk proteins among laboratory rats *(Rattus norvegicus):* Radim Brdička 175

Genetic variants of glucose phosphate isomerase (E.C. 5.3.1.9) in canine erythrocytes: Yuichi Tanabe, Tokiyoshi Omi and Katuaki Ôta 191

Miscellany

Freeze drying cattle blood typing reagents: D. F. Weseli 241
